English translation:

It used to work a lot, so eventually it started taking forest strolls.
It wanted to close its eyes and take a nap.
They kept closing its eyes against its will, so it made sure to open theirs.
They kept opening its eyes against its will, so it made sure to close theirs.
(This was) painful; it was in pain.
Yet the monster's bloodshed did not turn out worthwhile.
Soul lost its monster, despite having struggled.
Heart replacement was not enough.
It was injured, wasn't it?
Yet the monster's guilt had not made everything worthwhile.
